September 2018

As you all are probably aware Peggy Johnson passed away on July 29th after a long battle with cancer.

Her passing is a great loss to the SIG Photoshop elements group and the few remaining members of DVPC, she was a stalwart member of both organizations and will be greatly missed.

I had discussed with Peggy having a SIG meeting in late September, not at her house but probably at Dave Sutton's place which he had offered to host.

I think in light of our loss we should postpone the next proper meeting until we have had chance to discuss amongst ourselves the path the group should take.

I will be contacting the regular attendees around the middle of September and we will decide on the future.

In the meantime, at Peggy's request there was no public service, she asked that her remains were to be scattered at Wrights Beach in Bodega Bay.

From all of the Elements SIG members:

Goodbye Peggy, you will be greatly missed.

R.I.P.
